FULL-STACK DEVELOPER

Top 3 reasons to join us:
- Self-organizing team with young and talent colleagues;
- Growing your knowledge not only in technology but also in finance and enterprise;
- You are empowered to try and fail in a start-up culture: creative, hunger, high energy & flexible environment.

The job:

Kiu Global is building a platform offers simple, flexible and affordable tools for enterprises to manage their businesses and access credit.

To go global faster, we are looking for someone who is passionate about: financial technology, banking software, and ERP.

Our development team focuses on product development and how to deliver the best products to customers so you will stay on the cutting edge of software development and opportunities to apply new technologies to the product.

As we are building products for business you will be able to learn more about how businesses operate apart from gaining knowledge about programming.

Your colleagues will always be ready to accept merge requests to close your issues.

Your skills and experience:

Requirements
- Degree in computer science, bachelor of software engineering;
- We mostly use Python and JavaScript for our products. You may know other programming languages but you should have a solid knowledge of object-oriented programming/design, data structure and algorithm;
- You should be familiar with SQL or NoSQL, HTML and CSS;
- You should have analytical thinking and problem-solving skills;
- English reading comprehension skill will help you to learn quickly.

We prefer

- Knowledge about Source Version Control, CI/CD, Restful API, GraphQL, Message Queue, Caching are advantages;
- Good verbal English skills;
- Knowledge about AWS;
- Familiar with Nix environment;
- Experience with these frameworks and technologies: Flask, NodeJS, PostgreSQL, MongoDB, Elasticsearch;
- Knowledge about ERP and SaaS are advantages;
- Test driven development and behavior driven development;
- Nice to have knowledge about the modern front-end libraries or frameworks such as Vue.js, React and React Native.

Benefits:

- Salary: Negotiate;
- Team building, company trip, ...;
- Annual Leave;
- You will work the colleagues who are young and full of passionate intensity;
- You will work in an international team;
- You will have opportunities to have business trips to Vietnam, Myanmar, Bangladesh, Philippines, Thailand, …;
- You will be empowered to do what you can prove;
- You will be trained carefully before implementing their task;

Working time and location:

- From Monday - Friday (9 A.M - 6 P.M)
- Kiu Cambodia Office: #3009-17E3, Sahaka Coworking, Street 484, Phsar Doeum Thkov, Khan Chamkarmon, Phnom Penh, Cambodia
